

# The Border Widette.

Vol. 7.

NOGALES, ARIZONA, AUGUST 26, 1899.

No. 34

## Henry Levin,

CUSTOM HOUSE BROKER

—AND—  
MANUFACTURERS' AGENT.

CATTLE, REAL ESTATE AND MINES FOR SALE.

Insurance &amp; Collections.

Nogales,

Arizona.

WILLIAM ROY

ED. TITCOMB

## Roy & Titcomb,

Commission Merchants.

Dealers in

Lumber, Doors and Windows; Lime and Cement; Valvoline Oils; Giant Powder, Fuse and Caps; Coal and Coke; Octagon Steel, Iron Roofing, Bar Iron and T. Rails.

SOLE AGENTS IN

Sonora, Sinaloa and Lower California for the  
DENVER FIRE CLAY CO.,  
COMMON SENSE WHIM CO.

Agents for

THE MEXICAN GOLD & SILVER  
RECOVERY CO., LIMITED.  
GIANT POWDER CO.  
LEONARD & ELLIS.

NOGALES. - - - ARIZ.

### SILVER CITY REDUCTION COMPANY,

Silver City, Grant County, New Mexico.

This plant has been purchased and will be operated in the future by the estate of the late Senator George Hearst of California, under the general management of D. B. Gillette, Jr.

It is the intention of the present management to largely increase the capacity of the plant and equip it with every modern appliance for the successful and cheap treatment of ores and concentrates.

Consignments and correspondence solicited. Advances will be made on ores. A. L. Pellegrin & Co., Local Agents.

## THE CASINO.

Free Entertainment  
Every Night  
By High Class Artists.

The Finest Sporting House in Nogales.  
Fine Liquors and Cigars.  
All Games Run on the Square.  
L. Lulley, Prop.  
Nogales, - - - Arizona.

## HOTEL ALMADA.

M. MARCHEBOUT, PROP.

GUAYMAS, SONORA.

THE MOST CENTRAL LOCATION.

GOOD RESTAURANT, GOOD SERVICE.

THE MOST COMFORTABLE  
AND BEST VENTILATED.

## Grand Hotel,

COHN BROS.

First-Class in Everything and Most Centrally Located.

HEADQUARTERS FOR COMMERCIAL AND MINING MEN.

Rates—\$2.00 per Day. Special Rates by the Month.

Hermosillo,

Sonora, Mex.

## YAQUIS UNDER CONTROL.

Mrs. Remley to Recover the Bodies of Her Husband and Miller.

Information has been received from Hermosillo to the effect that early this week Governor Corral offered to Mrs. Remley, wife of one of the victims of the Yaqui outbreak, a carriage and escort to convey her to a point near Bieam for the purpose of recovering the body of her husband. Miss Remley, of Missouri, sister of deceased, has advised the widow to accept the offer; in that event she will recover also the body of Andy Miller who was killed with Remley.

General Lorenzo Torres has also wired Governor Corral that he has recovered the bodies, and that he is ready to give them escort to the nearest railroad station as soon as he receives instructions as to the desires of the ladies. It is probable that Mrs. Remley will go to Bieam and accompany the bodies to either Ortiz or Guaymas, whence they will be transferred to Hermosillo for interment.

George Wanless, travelling ore buyer for the Kansas City Consolidated Smelting and Refining company arrived in the city Monday night from the interior and confirmed previous dispatches to the effect that the disaffected Indians number only a few hundred and that they are under absolute control of Generals Luis and Lorenzo Torres on the reservation. He does not believe that the Indians can do any further damage and expresses his confidence in the ability of the commanders of the army to completely control the renegades.

Information has been received from Marshall P. Wright to the effect that he arrived safely at his La Providencia mine, and that he does not find that the Indians are at all in arms in the Ures district, or antagonistic to either the Mexicans or Americans. Based on the most reliable information obtainable, the indications are that the war is practically over; that is to say, the army now in the field will be able to control the situation to the extent that depredations will not extend beyond the reservation.

General Lorenzo Torres has almost recovered from the wound received near Bieam and will in a few days be able to assume command of his division.

A dispatch was received at Torres station from Gen. Luis Torres, early in the week to the effect that he now has the Indians under control, and that no danger exists in the prosecution of prospecting or mining work or agricultural pursuits.

## Mill for Ramona Mine.

Capt. G. W. Vaughn, of Glasgow, Mo., general manager of the Kansas City and Sonora Mining and Milling company, passed through Nogales Wednesday enroute to the company's property at Gablan, 15 miles west of Ures, Sonora. Capt. Vaughn said the main shaft on the Ramona claim is down 200 feet and that one crosscut has been pushed 70 feet, 40 of which is in a fine body of ore carrying an average above 600 ounces of silver and from \$16 to \$23 gold. Every indication points to the presence of a large body of this grade of ore. The work of blocking it out is being systematically and diligently followed. Enough ore is now in the bins to keep a mill busy.

Before he left Chicago Capt. Vaughn closed a contract with the Gates Iron works for a complete 10-stamp mill, which is to be shipped from Chicago Sept. 20.

L. Hoskins of Quincy, Ill. accompanies Capt. Vaughn and will erect the mill.

## NOTICE.

Notice is hereby given that bids will be received at the office of the Board of Supervisors until 10 a. m., September 18th, for the care of the indigent sick of the county of Santa Cruz for the remainder of the current year. The Board reserves the right to reject any and all bids.

W. N. CUMMINGS,  
Aug. 22, 1899. Clerk.

Examinations of applicants for teacher's certificates will be held the first Monday in September when Judge E. B. Williams, county Supt. of schools, and F. J. Duffy and Miss Theo. Sprecker of the school board will act as an examining committee.

The Red House is receiving magnificent lines of ready made clothing. All the new styles, will be displayed at the opening next week.

## ARIZONA AT A GLANCE.

Dairyman near Phoenix have organized a combination to take effect September 1.

Grass-hoppers have appeared in Southern Arizona and are damaging slightly the growing crops.

Southern Arizona is covered with verdure and the late rains have insured excellent fall and winter pasturage. Grass is from four inches to a foot high all over the plains and foothills.

Good progress is being made in constructing the big irrigating ditch on the south side of the Gila river below Geronimo, for which Congress appropriated \$5,000. One hundred San Carlos Indians are employed on the work.—Star.

The board of supervisors of Coconino county appointed James A. Johnson, deputy Sheriff at Williams to the position of sheriff vice Fairchild whose mind became deranged to such an extent that he is confined in the territorial hospital.

Senator W. A. Clark when in Jerome recently expressed himself in favor of continuing the town as a corporation, and that he will assist in securing adequate water facilities if the people evince a disposition to secure them in a businesslike manner.

Work is being pushed on the railway from Williams to the Grand canyon of the Colorado. The road will be known as the Santa Fe Grand Canyon railway. It will be sixty-two miles long. Lombard, Good & Co., of New York, have financed the company. Twelve miles are already graded.

Sports run high in Jerome according to the following from the News: "Is Jerome sporty? Well, if a poker game lasting twenty-four hours, with not less than \$4,000 on the table at any one time, goes, it is. Such a game occurred in the Fashion Saturday. Large game can be seen there at almost any time."

The mayor of Jerome has been served with the preliminary papers pertaining to the commencement of the suit brought to disincorporate the town of Jerome. The title of the case is, "The Territory of Arizona, in the relation of C. F. Ainsworth, attorney general of said territory plaintiff, vs. the town of Jerome, defendant."—Prospector.

A dispatch of the Associated Press from Winslow, Arizona, under date of August 21, says of a threatened outbreak of Indians: "Two hundred Indians at Minks' grading camp at Navajo Springs are on a big drunk and since one of their number was stabbed by a gambler, they threaten to exterminate all whites in this section. Troops from Wingate have been ordered to the scene. Serious trouble is feared as a result of the differences."

## JOHN A. KRUSE IN NOGALES.

To Visit his Ranch and Placer Grounds.

John A. Kruse, the Chicago millionaire who, with F. D. Wheeler and associates owns 2,000,000 acres of grazing and timber land in north eastern Sonora, arrived Wednesday at the Montezuma. With him came R. A. H. Watson, of London and C. L. McIntyre, of Park Hill. The last two with Albert Ruple, left Thursday for Suagui Grande, Sonora, where they will install machinery to test the placer ground in and near the Yaqui river. The machinery to be used is the same as is employed in testing gravel in California. Pan tests that have been made of the ground show rich results, and if the new machinery to be used proves as successful then dredging machinery will be applied.

Mr. Kruse, first visited Sonora in 1883. He made a survey of eastern Sonora for the Mexican government and during the 10-year's Yaqui war and the Apache trouble was in the state a large portion of the time. Speaking of the future of Sonora Mr. Kruse, said it is continuous March of development. "The Montezuma Copper company," he said, "owned by the stock holders of the Copper Queen company is doing the heaviest development work in the state; and the reduction plant under construction will be equal to anything in the United States. Other great properties," he said, "are being developed in Montezuma, Arizpe and Ures districts, and that no great time will be required to make Sonora one of the heaviest gold and copper producing districts on the continent. He left Nogales Thursday for Bisbee enroute to his great ranch.

Don't forget that Fleischer Bros., represent three big clothing houses. They make suits to order from \$10 up. Fit guaranteed.

All wool and cloth hats positively half price at the Red House.

## IN MINING FIELDS.

Progress of Development in Arizona and Sonora.

It is reported that the Lucky Boy mine in Mohave county has been sold to Los Angeles parties for \$15,000.

A contract has been let for the further sinking of the shaft on the Whip-saw mine, and its prospects are flattering.

It is understood an additional force of several men will be put on the Copperopolis, managed by Dr. Ford, about the 20.—Republican.

It is probable that a smelter will soon be located at the Apache group of mines in the Catalinas, as negotiations are now being made with that end in view.—Republican.

Ralph Campbell, a recent arrival from the east, has taken a bond on the group of mining claims on the head of Groom Creek in Yavapai county, owned by Tim Fell and Mr. Fletcher, for \$10,000.—Journal Miner.

Mining sales or the negotiations for properties are of almost daily occurrence in this section these days. Nearly every train brings one or more parties to examine our resources in general, or some property in particular.—Prospector.

Albert Langfeld, of L. Zeckendorf & Co., of Tucson, and Alex Hill, representing London capital, have, it is understood, commenced extensive development work on the Enterprise in the Patagonia mountains, between Washington camp and Harshaw.

Several rich silver veins have lately been uncovered in the mountains known as the "Three Sisters," south of Doming and near the Mexico line. Some of the ore runs as high as 400 oz. of silver and 60 per cent lead to the ton. Eastern parties are now negotiating for some of the mines.—El Paso Times.

Al Ezekiels, one of the owners of the Cuprite mine in the Santa Ritas, has been in Nogales during the week looking to details in connection with shipments of ore. He says the location of a custom smelter in Nogales is a probability and that next week two practical smelter men of large means will arrive here to investigate the field.

Articles of incorporation of the American Boy Gold Milling company were filed with the secretary of the territory. H. H. Markam, Frank S. Daggett, Geo. D. Patton, D. W. Field and Thos. Johnson are the incorporators. The principal places of business are Yuma, Ariz., and Pasadena, Cal. The capital stock is \$300,000, divided into 6,000 shares at \$50 each.

The Crown Point mill in Maricopa county is now completed and ready for business. It is said to be one of the best mills in the territory. Col. Brodie, who owns the mine, will try the experiment of using coal for fuel, and freighters are now busy hauling in a good supply. There is an abundance of good ore in sight, and it is understood the mill will be started about September 1.

The highest bid for the Harqua Hala mines and mill, which were advertised to be sold at auction at the court house in Yuma last Monday, was \$5,010, which was promptly rejected by C. H. Lindley, attorney and auctioneer. A number of bidders were present, but all seemed rather timid and the sale was a disappointment. A. G. Hubbard, who sold the mines to the present owners a few years ago for \$1,250,000, was the highest bidder. It is understood that arrangements were made later in the week whereby Mr. Hubbard will again get possession of the property, but the consideration was not made public.—Yuma Sun.

A. W. Moore, of Solomonville, has purchased, says the Bulletin, the Copper Queen, Red Buck, North Homestake and South Homestake—three copper claims and one gold claim. They were located about one year ago by B. F. Gish, M. L. Gorton, E. J. Hanley and W. F. Othwaite, and are situated in the Yukon district, Graham county. On the Copper Queen is a 57 foot vertical shaft. It is Mr. Moore's intention to begin development work within the next ten days, having already let a contract for sinking the shaft on the Copper Queen fifty feet deeper than it now is and he expects to continue the shaft to a depth of at least 200 feet.

## Mexico.

Adam Fulton, an Arizona prospector has denounced a natural cave near Bacerac, which he says is literally lined with pockets of free milling gold. Some

of the ore assays twenty-five ounces to the ton.—El Paso Times.

A Hermosillo paper announces that J. A. Naugle, general manager of the Sonora road and George Kranz, owners of La Union Minera de las Prietas, have arranged to sell that property for \$200,000 gold. The name of the purchaser is not mentioned.

The Mexican Lead company, with an authorized capital of \$7,000,000 has been incorporated at Trenton, N. J., to operate lead and other and other mines in the Republic of Mexico. The capital stock is made up of \$1,250,000 preferred and \$5,750,000 common.—Two Republics.

Andrew Grant, who is largely interested in mining properties in the California group in Sonora, Mexico, was in town lately. He reports that the possibilities are unlimited there and the prospects of rich gold output will ultimately be realized.—Bisbee Correspondence, Prospector.

M. B. Bowers has brought to El Paso some samples of free milling gold ore which were taken from a claim he has denominated in the Montezuma district. The claim is situated about five miles from the noted Placeritas camp. He says that he has a well defined 3-foot vein and expects that the ore will run 20 ounces of gold to the ton.—El Paso Times.

Correspondence from Casas Grandes says: Parties who have just arrived from the Montezuma mining district, Sonora, report great excitement over late rich discoveries, and say that many prospectors are flocking there from other sections of the country. The smelter that is being erected at the Placeritas camp has attracted the attention of other capitalists and there is now talk of building a smelter at Montezuma. A London syndicate has purchased a big group of copper prospects twenty miles west of Montezuma, and propose to invest \$50,000 developing the property.

A prominent engineer who recently returned to Chihuahua speaks in glowing terms of the Pacific coast country especially the region about Topolobampo. He says the streams, have inexhaustible wealth of gold and as for the riches already extracted from the rivers they are insignificant compared with those still contained under the surface of the earth. The fabulously rich deposits of silver ore at Pinaros de Pecos, on the Sonora side, where A. J. King, J. H. McKimm and Jesus Santa Cruz have been digging some high grade ores for over a year from the mines known as Cinco de Mayo, Noche Triste, Roy, El Puente and San Rafaelito, were discovered by a Mexican, whose occupation, was distilling the maguey plant.—Chihuahua Enterprise.

## Notice of Election.

Whereas a petition has been presented to the undersigned, signed by a majority of the heads of families in Nogales School District No. 1, of Santa Cruz county, Arizona, asking that an election be held to submit to the taxpayers of said district the matter of issuing the bonds of said district for the purpose of raising money to build a school house, supplying the same with furniture and necessary apparatus and improving the grounds about the same, wherefore notice is hereby given that an election for the said purposes will be held on Monday, the 15th day of September, A. D. 1899, at the office of J. B. Mix on Railroad avenue, in the town of Nogales, Arizona, at which place the polls will be open from 9 a. m., until 4 o'clock p. m., which election will be conducted by F. J. Duffy, inspector, and B. O. Walker and W. H. Randall judges thereof.

The aggregate amount of the bonds to be issued to be \$16,000 to be divided into bonds of the denominations of \$1,000 and \$500. Those of \$1,000 to be numbered by even numbers, and those of \$500 by odd numbers, and made payable one of each denomination in each year of payment, so that the yearly payment will include \$1,600 or one bond of each denomination. The bonds to bear interest at the rate of six per cent per annum, and to run for a term of twenty years from the date of their issue, one tenth of the whole amount of the amount of said bonds to be paid in ten years from the date of issue, and one tenth of the amount annually thereafter.

H. K. CHENOWETH, Clerk.  
A. A. DOHERTY.  
J. B. MIX.

Lieut. Alfred Hampton, last week was the subject of a rather unique dental surgical operation. Dentist A. A. Doherty, extracted one of the lieutenant's molars, filled it and replaced it in its former position.
